The Georgi Dimitrov Rubber Factory

1. The Georgi Dimitrov (formerly Bakish) Rubber Factory is located in the northwest part of Sofia, approximately 300 meters south of the TETs (Termo Elektricheska Tsentrala; Electric Heating Plant) Nadezhda. (See appendix, page 2) It produces an unknown quantity of tires, rubber shoes, and rubber articles.
2. Approximately 3,500 workers are employed in three shifts. The personnel will possibly be increased because of the continuous development of the factory.

The Nadezhda Power Plant

3. The Nadezhda Power Plant (see appendix, page 2, for location) supplies power to Sofia and its environs. It began operating in 1950 and employs a considerable number of prisoners and political internees.
4. A project is being studied for carrying hot water from the power plant to all the factories in Sofia and, later on, to also heat all the private houses by this system.
